SUMMARY

As a results-driven Full Stack Developer, I possess expertise in both frontend and backend technologies, including React, Node.js, Express, and MongoDB. I excel in creating dynamic and scalable web applications and deliver efficient full stack solutions while ensuring high performance and responsiveness.

EXPERIENCE

WIPRO LIMITED, Chennai. – *Project Engineer*

OCT 2021 - FEB 2024

- Developed and maintained full-stack web applications using the MERN stack, ensuring high performance and responsiveness.
- Designed and implemented RESTful APIs using Node.js and Express.js, enabling efficient communication between frontend and backend systems.
- Built interactive and user-friendly frontend interfaces using React.js, incorporating modern UI/UX principles.
- Managed database operations using MongoDB, including schema design, query optimization, and data integrity.
- Utilized version control systems like Git for collaborative development and code management.
- Conducted thorough testing and debugging to ensure application reliability and performance.
- Collaborated with designers, product managers, and other developers to deliver projects on time and within scope.
- Continuously improved skills by staying updated with emerging technologies and best practices in web development.
- Participated in daily stand ups and biweekly sprint planning meetings, consistently delivering features ahead of schedule.
